

Livable Luxury

Charlotte builder's custom homes are built on a solid foundation of strong and lasting relationships.

Arcadia Custom Homes has been a premier builder of high-end luxury residences in greater Charlotte for 25 years. "What sets us apart," says President and Managing Partner Jeremy Schumacher, "is our commitment to character, integrity, and transparency with the families who've trusted us with their homes."

At Arcadia, those families are an integral part of the planning and design of every custom home. They're also fully involved throughout the building process, too, thanks to weekly in-person and on-site meetings with project managers and 24/7 online access to a personalized project portal, complete with up-to-date photos, construction documents, client selections, and the construction

schedule. In every stage of an Arcadia project, buyers have "full visibility into everything we're doing," says Schumacher. "We think of them as part of our team."

FULL-SERVICE CUSTOM HOME EXPERIENCE

Co-founded in 1994 by Michael Salamone and Robby Bowers, Arcadia boasts a management team with backgrounds ranging from architecture and construction to finance, land development, engineering, and design. Together, their combined skillsets and years of experience are unsurpassed in the region and provide clients with a comprehensive team for all phases of custom homebuilding.

A Master Builder accredited by the North Carolina Home Builders Association, Arcadia uses the highest quality materials and craftsmanship available and works with the best designers and architects in greater Charlotte. "We're relentless about getting the details right the first time," says Schumacher—a philosophy that produces highly satisfied clients who often turn to Arcadia for future building projects. Most importantly, the Arcadia team is committed to complete customer satisfaction on every single project, even after homeowners move in. After all, says Schumacher, "it's not just about building luxurious homes; it's about building long-lasting relationships."
